I-CAR ANNOUNCES GOLD CLASS FOR BPS AUTOBODY

I-CAR Australia Gold Class Coordinator Gary Wood today announced that BPS Autobody in Bankstown, New South Wales has been awarded the prestigious I-CAR Gold Class Collision status.

“Congratulations to BPS Autobody who have joined the growing number of repairers committed to the development of their staff members through role relevant training with I-CAR.

Warren and the team at BPS have participated in regular training sessions over the past twelve months which has seen them meet and surpass the training requirements for the I-CAR Gold Class accreditation. It’s a fantastic achievement by all concerned considering the challenges faced by everyone within the industry during 2020,” said Mr Wood.

“BPS Autobody commenced the I-CAR “Road to Gold Class” early 2020 as we found the rapid developing technology in repairs within the motor vehicle repair industry had become so complex, not only for the technicians, but for the estimating procedures and manufactures safety requirements.

I-CAR has instilled peace of mind and all the training required for BPS Autobody to maintain our position as one of the elite group of Autobody repair facilities in Australia, recognized by both Insurance Companies and motor vehicle manufacturers.

BPS would like to thank the I-CAR team for all their assistance in accomplishing our Gold Class Certification,” explained Warren Renno.

I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety and efficiency of auto collision repair for the ultimate benefit of the consumer.
