## I-CAR ANNOUNCES GOLD CLASS FOR RP PANELS ACCIDENT REPAIR CENTRE

I-CAR Australia Gold Class Coordinator Gary Wood today announced that RP Panels Accident Repair Centre in Spotswood, Victoria has been awarded the prestigious I-CAR Gold Class Collision status.

“What a great and rewarding experience achieving Gold Class Accreditation has been.

We are very proud of our team at RP Panels Accident Repair Centre and look forward to our future courses with I-CAR. Training is so important in our trade, especially with the ever-evolving trends and technology in the industry.

We are very fortunate we have a resource like I-CAR to turn to for exceptional training and advice,” explained Brent Loverso.

“As RP Panels are a GM Approved Repairer, we have been working closely with them over the past twelve months to ensure they meet the training requirements of the network. Together, we developed a well-balanced training schedule that incorporated body specific content for the Estimating and Panel staff, and also took advantage of the training alliance we have with PPG to provide product specific and environmental training to the refinish department.

The entire team have been a pleasure to deal with, with their attitude and commitment to the training being fantastic from the beginning. We look forward to continuing our relationship with RP Panels into the future.

Congratulations from everyone at I-CAR Australia,” said Mr Wood.

*I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety and efficiency of auto collision repair for the ultimate benefit of the consumer.*
