I-CAR ANNOUNCES GOLD CLASS FOR SUPER TEK COLLISION REPAIRS

I-CAR Australia Gold Class Coordinator Gary Wood today announced that Super Tek Collision Repairs in Thornbury, Victoria has been awarded the prestigious I-CAR Gold Class Collision status.

“We are very proud to have achieved I-CAR Gold Class status and thank the team at I-CAR Australia for providing such a well-structured training program.

This has allowed us the opportunity to commit to ongoing training, which ensures our team stays up to date with motor vehicle technology, broadening their skills and knowledge on repair and refinishing processes to deliver quality workmanship.

It has been extremely challenging over this COVID-19 pandemic and our staff have embraced the training enthusiastically,” explained Terry Carpenter.

“Super Tek have been regular participants in I-CAR training for a number of years. This involvement, coupled with the training required as a Subaru Preferred Repairer, has seen the well-respected business now achieve the I-CAR Gold Class designation.

Terry and the team have taken full advantage of the various training options provided by I-CAR, including live classroom, online virtual sessions, fully online training, the I-CAR steel welding certification and specialist refinish training arranged with our Industry Training Alliance partner, PPG. It is fantastic to see another Victorian repairer end the year on a high by achieving the accreditation. Extremely well done to everyone involved,” said Mr Wood.

I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety and efficiency of auto collision repair for the ultimate benefit of the consumer.
