I-CAR ANNOUNCES GOLD CLASS FOR SIMMOS ACCIDENT REPAIR CENTRE

I-CAR Australia Gold Class Coordinator Gary Wood today announced that Simmos Accident Repair Centre in Byron Bay, NSW has been awarded the prestigious I-CAR Gold Class Collision status.

Business Manager, Tony Dimmick commented “Simmos Accident Repair Centre would like to thank the team at I-CAR for helping us on our journey to achieving Gold status.

The whole team has benefited from doing the courses and we look forward to doing more in the future. The ability to do the courses as a group online, made the whole process quick and easy.”

Simmos are a well-known and respected business in the Byron Bay area of NSW. Over the past twelve months, they have committed to achieving the I-CAR Gold Class accreditation to further establish their status and reputation within the industry.

Along with participating in various online courses, they have also taken advantage of I-CAR’s training alliance with Axalta to deliver product specific training to their staff members and have had their Structural Technicians complete both the Steel and Aluminium welding certifications as part of their Tesla-Approved Body Shop requirements.

The pledge by Simmos to continue training after accreditation is something that all our Gold Class repairers have undertaken because they recognise the value and importance of training to meet the ongoing technological advancements and changing demands of the collision repair industry” said Mr Wood.

I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety and efficiency of auto collision repair for the ultimate benefit of the consumer.
