I-CAR ANNOUNCES GOLD CLASS FOR ARISTOC PANELS

I-CAR Australia is pleased to announce today that Aristoc Panels has been awarded the prestigious I-CAR Gold Class Collision status.

“Aristoc Panels take pride in providing the best service and quality to our customers. We decided to enter the Road to the Gold Program with I-CAR and its Industry Training Alliance Partner PPG as it is one of the many accredited training platforms recognised by the collision repair industry in Australia,” stated the team at Aristoc Panels located at Glen Waverley, Victoria.

“The online training was easy to follow and worked in our schedule. During the lockdown curfew restriction, the course worked well for the team as they can do it from home. The training has provided us with relevant up to date knowledge and skill in compliant repairs, improved business performance and risk reduction. Our team has built confidence and we are very proud to be providing Gold Class quality and service to our customers.

Our team at Aristoc Panels is privileged to be awarded the I-CAR Gold Class Accreditation. We highly recommend the program and plan to keep up to date with our Gold Class renewal training and look forward to future learning with I-CAR.”

Aristoc Panels are part of the Suncorp repairer network as well as various other insurance repairer networks. Their pledge to continue training after accreditation is something that all our Gold Class repairers have undertaken because they recognise the value and importance of training to meet the ongoing technological advancements and changing demands of the collision repair industry.

I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety and efficiency of auto collision repair for the ultimate benefit of the consumer.
