Collision Repair Industry & Independent Mechanical Industry

Summary:

Holden Repair Procedures – New Level of Service.

More info:

Holden has been leading the way for many years when it comes to providing Genuine Holden Repair Procedures to the industry.

Holden is pleased to announce a new level of service that will deliver Genuine Holden Repair Procedures directly to Mechanical and Collision Repairers in Australia.

Please follow the 3 simple steps below:

<u>Step 1:</u>

Call the VACC on 1300 013 343

<u>Step 2:</u>

Request the Genuine Holden Collision or Mechanical Repair Procedure required. The VIN number of the vehicle will be needed.

<u>Step 3:</u>

VACC will email you a link to obtain a packet of repair information to repair the vehicle.

Holden Dealers are encouraged to share the attached advertisement with all of their parts customers.
