CRASH PARTS NOTIFICATION

Mitsubishi Motors Australia Ltd recommends the use of genuine parts supplied by a Mitsubishi Authorised Dealer to repair a Mitsubishi vehicle.

These genuine parts are designed and manufactured to match perfectly with the vehicle. Not only do they save time and money when they fit first time every time, they are fully integrated to the cars safety features, such as airbag deployment and crumple zones. These safety features are paramount in protecting the occupants of the vehicle in the unfortunate case of an accident.

Mitsubishi Motors Australia Ltd and its Dealer network carries a vast range of parts to repair Mitsubishi vehicles. Only these parts, supplied from an authorised Mitsubishi Dealer carry Mitsubishi Motors Australia Ltd.'s warranty. Non genuine, aftermarket or parallel imported parts (i.e. parts imported into Australia not by Mitsubishi Motors Australia Ltd) are not covered by Mitsubishi Motors Australia Ltd.'s warranty.

Mitsubishi Motors Corporation designs, manufactures and distributes vehicles to many countries worldwide. Due to various local conditions and customer requirements, vehicle specifications and consequently parts used to manufacture the vehicles, vary from country to country. By purchasing genuine parts from your local Mitsubishi dealer, you are obtaining the correct part for that vehicle in Australia.

Summarising, to ensure the car is repaired correctly and to have the Mitsubishi Motors Australia Ltd.'s warranty, it is strongly recommended to use genuine parts sourced from your local authorised Mitsubishi dealer when repairing a Mitsubishi vehicle.
