

DAMAGE ANALYSIS OF LIGHTING AND VISION ASSIST

EA075E01

Course Format: Online training with posttest

I-CAR Credit Hours: 1 hour

Points: 0.25

This course helps satisfy ProLevel training requirements for the following roles:

Estimator

Assessor

Course Content

Module 1

The course begins by explaining adaptive front lighting systems, their operation and damage analysis.

Module 2

This module focuses on high beam assist systems and identification. At the end of the module you will be able to recall the high beam assist system and understand damage analysis process.

Module 3

Night view assist is discussed, the different systems available and how to analyse damage to the system.

Learning Objectives

- Identify the adaptive front lighting system. Operation and damage analysis
- Identify the high beam assist system, operation and damage analysis
- Identify the night view assist system, operation and damage analysis
