Non-Structural Technician

Assessor

Structural Technician

Estimator

Vehicle Technology and Trends is a 1-hour course that covers trending topics in the automotive and collision industry for 2020. This is broken down by regions which are domestics, Asian imports, and European imports. This course will also touch on some of the new vehicles either being offered as a new model, or ones that have had a complete redesign for 2020. The course concludes with a discussion of future vehicles and technologies.
