

ELECTRIC VEHICLE (EV) DAMAGE ANALYSIS

VT455E01

Course Format: Online training with posttest

I-CAR Credit Hours: 1

I-CAR Points: 0.25

This course helps satisfy ProLevel training requirements for the following roles:

Non-Structural Technician

Estimator

Structural Technician

The Electric Vehicle (EV) Damage Analysis course is a 30-minute course that reviews necessary safety precautions when working with EVs. It gives a great level of detail on EV's high voltage components, safety precautions and relevant non-high voltage parts. The course also provides damage inspection and estimating considerations for EVs.
