

INTRODUCTION TO ELECTRIC VEHICLE SERVICE CONSIDERATIONS

VT460E01

Course Format: Online training with posttest

I-CAR Credit Hours: 1

I-CAR Points: 0.25

This course helps satisfy ProLevel training requirements for the following roles:

Non-Structural Technician

Introduction to Electric Vehicle Service Considerations is a 30-minute course that explains the unique considerations for servicing electric vehicle (EV) systems. In addition, students learn how to remove and install (R&I), and remove and replace (R&R), common EV system parts that are associated with collision repairs.
