

CONTROLLING STATIC IN THE REFINISH PROCESS

VT305E01

Course Format: Online training with posttest

I-CAR Credit Hours: 1

I-CAR Points: 0.25

This course helps satisfy ProLevel training requirements for the following roles:

Refinish Technician

Assessor

Estimator

Controlling Static in the Refinish Process is a half-hour course that will explain static, how it is created, and how it affects refinishing materials. How and when to use anti-static tools and products during refinishing are also reviewed and explained.
