## I-CAR ANNOUNCES GOLD CLASS FOR FLOW AUTOBODY

I-CAR Australia is pleased to announce today that Flow Autobody has been awarded the prestigious I-CAR Gold Class Collision status.

*“In our workshop, we value continuous learning to drive quality work and live up to our promise of high-quality repairs. We decided to take the I-CAR Road to Gold journey to upskill the entire team and make sure we are up-to-date with current trends and technologies,”* outlined Jai Aguilar, business owner of Flow Autobody.

*“Everyone was willing to join the I-CAR program from the get-go, and we were able to get a lot of value from it. The training was also a good break from the usual day to day work. It gave us the opportunity to learn as a team and the group classes were enjoyed by everyone which has really helped to galvanise the team.*

*We aspire to be a world class workshop, and we believe continuous improvement and learning is the key to get there. The I-CAR Gold Class training program will provide us with the learning content as the courses are very relevant to the current collision industry and highlights the complexity of modern vehicles and skills and knowledge required to repair them to a safe and high level.”*

Flow Autobody is located in Enoggera QLD and is a member of the Car Craft Queensland. Their pledge to continue training is something that all our Gold Class repairers have undertaken because they recognise the value and importance of training to meet the ongoing technological advancements and changing demands of the collision repair industry.

*I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety and efficiency of auto collision repair for the ultimate benefit of the consumer.*
