Non-Structural Technician

Assessor

Structural Technician

Estimator

Vehicle Technology and Trends 2022 is a 1-hour course that provides an overview of new and trending automotive technologies for 2022. The course provides a summary of changes in the automotive industry, including the collision repair industry. Additionally, the need to prepare for electric vehicle collision repairs is addressed. A preview of the 2022 new vehicle models for domestic, Asian imports, and European imports is reviewed in this course as well.
