

Nissan Rogue 2021 Electromechanical Repair

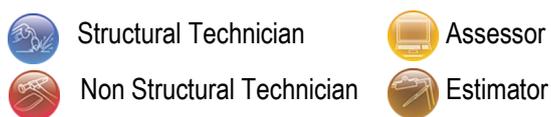

VT605E01

Course Format: Online training with posttest

I-CAR Credit Hours: 1

I-CAR Points: 0.25

This course helps satisfy ProLevel training requirements for the following roles:

The Nissan Rogue 2021 Electromechanical Repair course is a 45-minute course that introduces the parts associated with electromechanical systems, parts, and repairs. It provides an overview of the mechanical information, advanced driver assistance systems (ADAS), and the electrical and battery systems of the vehicle. This course also explains powertrain, steering, and suspension parts and repair considerations.

After completing this course, you will be able to:

- Explain mechanical repairs and considerations on the 2021 Nissan Rogue
- Understand advanced driver assistance systems (ADAS) features and calibration procedures for vehicle repairs
