Non-Structural Technician

Assessor

Structural Technician

Estimator

Vehicle Technology and Trends 2023 is a 1-hour course that provides an overview of new and trending automotive technologies for 2023. The course provides a summary of changes in the automotive industry, including the collision repair industry. A preview of the 2023 new and updated vehicle models for domestic, Asian imports, and European imports is reviewed in this course along with a look at select 2024 offerings from vehicle makers.
