I-CAR ANNOUNCES GOLD CLASS FOR CATHCART SMASH REPAIRS

I-CAR Australia is pleased to announce today that Cathcart Smash Repairs has been awarded the prestigious I-CAR Gold Class Collision status.

“We entered the Road to Gold Program wishing to be aligned and educated with industry standards and procedures across our whole repair process from Estimating to Repairing. The training delivery options offered by I-CAR were well suited to our staff with during-business-hour as well as outside-of-business-hour courses. This works well with harmonising the work and home balances for most people,” explains Daniel Frankling, manager of Cathcart Smash Repairs.

“Our staff’s feedback is very positive after completing any training as they feel more confident in the way they repair the car resulting in a cleaner and more efficient outcome for the business.

During our training journey, we had the advantage of utilising a number of Industry Training Alliance Partners for I-CAR points with Axalta’s Spies Hecker in our Paint Shop along with Glasurit and their 100 Line training. Our OEM training with BMW Australia and Tesla has certainly helped in setting the standards high for our repairs and skills.”

“It is wonderful to see the Cathcart Smash Repairs team using a variety of delivery methods and ITA partners to help them through,” outlines Gary Wood, Senior Technical Advisor at I-CAR Australia. “They have proven that Bendigo as a regional centre of Victoria isn’t a barrier when it comes to professional development for their team. Cathcart Smash Repairs’ persistence and dedication to training will ensure safety and quality for all their customers.”

I-CAR, founded in 1979, is an international, not-for-profit, training organization dedicated to improving the quality, safety and efficiency of auto collision repair for the ultimate benefit of the consumer.
